Found in Versions:		Help Needed:	
Confirmed:	No		

Description

It seems that output of list connections command should use a suffix on channels without backlog: <source:src/bip.c#L1395>, but this is not the case.

list connections doesn't display a suffix on any channel:

```
02:04:18 Pilou | list connections
[...]
02:04:18 -bip | * milkypond to milkypond as "pilou" (pilou!pilou) :
02:04:18 -bip | Options:
02:04:18 -bip | Channels (* with key, ` no backlog) #test #milkypond #DuckCorp
02:04:18 -bip | Status: connected !
```
