### History

#### #1 - 2017-08-29 16:12 - Marc Dequènes

Well, this branch was temporary and connected to the discussion in [#518](#). Why split the discussion in a myriad of tickets?

#### #2 - 2017-08-29 16:32 - Marc Dequènes

So, I replied to all tickets. I think now the useful pieces can be cherry-picked and the rest reworked. So we can then switch back to the original branch and remove this one.

Beware the branch is still in the original repository. I think the remaining things could be added to the original branch, which would then be ported to the new repo, and this one would just be removed.
