

## DuckCorp Infrastructure - Bug #617

### dc-monitoring Ansible role: Group trusted-proc does not exist

2018-04-23 17:16 - Pierre-Louis Bonicoli

<b>Status:</b>	Resolved	<b>Start date:</b>	2018-04-23
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Marc Dequènes	<b>% Done:</b>	100%
<b>Category:</b>	System :: Base	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>		<b>Entity:</b>	DuckCorp
<b>Patch Available:</b>		<b>Security:</b>	
<b>Confirmed:</b>	No	<b>Help Needed:</b>	
<b>Branch:</b>			
<b>Description</b>			
trusted-proc group is required but group creation isn't handled by Ansible:			
<pre>ansible-playbook -l Touthirou -i hosts.yml -v --start-at-task "install security tools" playbooks/ common.yml [...] TASK [dc-monitoring : Give Rights on /proc to Zabbix User] ***** ***** fatal: [Touthirou]: FAILED! =&gt; {"changed": false, "msg": "Group trusted-proc does not exist"} ^^^</pre>			

#### History

##### #1 - 2018-04-27 10:48 - Marc Dequènes

True, good catch.

It is more of a global parameter from a DC perspective. Thus I would suggest adding the rules in the `dc-base` role and making it an optional parameter of the `dc-monitoring` role (to make the role more generic and reusable in other places).

##### #2 - 2018-04-28 10:53 - Marc Dequènes

- Status changed from New to In Progress

- Assignee set to Marc Dequènes

##### #3 - 2018-04-28 12:26 - Marc Dequènes

- Status changed from In Progress to Resolved

- % Done changed from 0 to 100

The group is now created. The fstab entry is updated (now using the group name for more readability).

As suggested the special group is passed as role argument.
