Description	
<p>Old files from Nicecity-OLD needs to be retrieved and put in the right place.</p> <p>Then we need to resume the work around the new backup system which was left unfinished in #497.</p> <p>If there's any reason to change our mind that's the right moment. I personally have no problem with the current plan. If we go on then we need to create a new simpler burp role as explained by Pilou on IRC.</p>
