Description

TheLounge gives this error:

```
Closing link: (00DAAABJB@193.200.42.177) [WEBIRC: you don't match any configured WebIRC hosts.] (irc)
```

The server logs confirm:

```
Mon Oct 25 2021 03:52:01 REMOTECGIIRC: From irc2.duckcorp.org: Connecting user 01DAAAA7C (193.200.42.177) tried to use WEBIRC but didn't match any configured WebIRC hosts.
```

Not sure what's going on, maybe a DNS lookup problem but the config did not change, the version is the same as on Buster since we used a backport and on the host the DNS and other services are working fine.
