Description

I deleted some redmine accounts (from the redmine DuckCorp instance only), for example those listed by this command:

```
wget https://www.stopforumspam.com/downloads/listed_email_365.gz
gunzip listed_email_365.gz
mysql redmine_dc -B -N -s -e "select user_id, address from email_addresses inner join users where
email_addresses.user_id = users.id;" | gawk '$1 !~ /^[0-9]+$/ { a[$1] = "" } $2 in a { print $1 " "
$2 }' listed_email_365 | wc -l
```

I also deleted some (3) locked accounts and almost all inactivated accounts.
